

## 2022/4/29 台大工學院 傑出企業家講座：林正一 系友

### 【Title】

Daxin Materials Corporation – A Materials Design House and More

### 【Abstract】

In this talk, Dr. CY Lin will speak about the experiences and events that led to the founding of Daxin Materials Corporation. Started in 2006 as a materials design house focusing on providing advanced materials/chemicals for the LCD industry, Daxin has evolved into something significantly more in the past 16 years. Dr. Lin will describe what has and has not changed. He will also point out some future challenges for Daxin demonstrating that chemical engineering plays an increasingly important role in the future of the company.

## Speaker Profile

### CY Lin

#### 【EDUCATION】
